

AIN Plastics is pleased to announce the newest
ACRYLIC HYBRID for the sign market.

ACRYLITE[®] SignFlex[™] acrylic sheet

for illuminated ads & signs that get noticed!

- Impact-modified for increased strength
- Higher light transmission for brighter images
- Excellent diffusing properties eliminate hot spots
- Frosted surface hides fingerprints and minor scratches
- Performs with LEDs, neon, fluorescent, or any light
- Outstanding weatherability for outdoor applications
- Resists breakage during fabrication, shipping, and installation
